Story ideas (use daily, 3 a day)

Countdown sticker

Add Instagram's countdown sticker set to 1 Jan 2027, 12:00 am. Followers tap "remind me" and get notified at launch. Post it on 30 Nov and reshare every few days.

Poll sticker

"Do you screenshot places from reels?" Yes / Every day. "Café or dessert spot?" "Beach or mall?"

Question box

"What's a place you saved and still haven't visited?" Reshare the best answers (text only).

Quiz sticker

"How many places does the average person save and forget?" Make it fun, not a statistic — options like "a few", "dozens", "I've lost count".

Reshare the day's posts

Reshare each image post and reel to stories with a GIF sticker or arrow pointing to "new post".

Link sticker

Before launch: "Notify me". From 1 Jan: "Download Spotted".

Daily habits

- Reply to every comment within the first hour after posting — it pushes the post to more people.
- Spend 15 minutes after each post commenting on UAE food and places accounts (genuine comments, no spam).
- Share every reel to stories and to TikTok and YouTube Shorts too (same 10-second video).
- Write captions as: hook line → 1–2 lines of value → call to action → hashtags.
- Check Insights every Sunday: which posts got the most saves and shares? Make more like those.
