Spotted · Instagram page guide

Campaign starts **Sunday 15 November 2026**. App launches **Friday 1 January 2027.**

0 · Hello · 15–29 Nov | 1 · Tease · 30 Nov–9 Dec | 2 · Reveal · 10–20 Dec | 3 · Countdown · 21–31 Dec | 4 · Launch · 1 Jan | 5 · Grow · from 2 Jan

1 · Set up the page (do this before 15 November)

Account

- Switch to a **Professional account** (Business) so you get Insights and can schedule in Meta Business Suite.
- Category: **App page**.
- Use the same handle on Instagram, TikTok and the app stores. Check: [@spotted.app], [@getspotted], [@spottedapp.ae].
- Name field (searchable): **Spotted · Save places from reels**

Profile picture

- Until 29 Nov: your current icon (01_Profile/App_Icon).
- From 29 Nov: the icon your followers vote for (A, L, S or N). Use the Icon_[X]_[name].jpg file from 02_App_Icon_Ideas/Icon_JPG.
- Instagram crops it to a circle, so keep the pin in the centre.

Offers

From January 2028: restaurant offers (Story_26).

3 · Your first grid

Pin these 3 posts

- **15–29 Nov:** Post_45 Hello · Post_48 1 km away · Post_47 Icon vote
- **30 Nov – 31 Dec:** Meet Spotted (7 Dec) · How it works (10 Dec) · Everything in one post (20 Dec)
- **From 1 Jan:** Out now · How it works · Reel_74 Works in the background

Grid tips

- Instagram now shows posts as 3:4 tiles, so keep text in the middle of every cover.
- Alternate colours (purple, cream, yellow, red, plum) so no two neighbours match.
- Pick each reel's cover from the Reel_Covers folder when you upload.

Preview of your first week (newest at top left): see 00_Start_here/Grid_preview_15_to_22_Nov.jpg.

When to post (UAE time)

Day	Stories	Post	Reel
Mon–Fri	9:00 am, 6:00 pm	12:30 pm	8:00 pm
Sat–Sun	10:00 am, 5:00 pm	11:00 am	7:00 pm
2–3 Dec, 1 Jan	Weekend times	11:00 am	7:00 pm

After two weeks, check Insights → Audience → Most active times and move by up to an hour.

4 · How to talk about the nearby alerts

This is Spotted's stand-out feature: the app works in the background. When someone is out — at work, running errands, on a drive — and a place they saved is nearby, Spotted sends a notification.

Say it like this

- "We'll tap you when you're 1 km away."
- "App closed? Spotted still has your back."
- "You choose the distance: 1 km, 5 km or 10 km."
- "Phone in your pocket. Saves on the lookout."

Example notifications (use in posts)

- 📍 [Café] is 1 km away — you saved it from a reel in March.
- 📍 3 saved places within 10 km — [Bakery], [Beach club] and [Bookshop].
- 📍 On your way home: [Bakery] is 2 km away.
- 📍 [Date farm café] is 10 km ahead.

Make sure the app really does each thing before you say it publicly (e.g. the distances offered and whether it works with the app closed). Background alerts need the user to allow location access "Always" on iPhone or "Allow all the time" on Android — mention this in your FAQ.

5 · Icon vote (20–29 Nov)

How to run it

- 20 Nov: post the carousel (Post_47 cover + 4 slides) and Reel_71.
- Same day: story poll sticker with 4 options A / L / S / N.
- Reply to every vote comment — it boosts reach.
- 29 Nov: post the winner's Instagram_post image + its motion MP4 as a reel. Change the profile picture the same day.

Want to choose yourself?

Skip 20 Nov and 29 Nov in the calendar and post Reel_61 and Reel_63 instead. You can still use the icon motion MP4s as a "new look" reveal.

6 · Hashtags

6–10 per post, at the end of the caption: always the Brand set plus one other.
