How to Get Meetings

Restaurants, shops and creators: ready-to-send messages, plus a walk-in script

Tips before you start

- **When:** visit or message 3-5pm, between lunch and dinner. Avoid Fridays at lunchtime and weekend evenings.
- **Who:** the owner or manager for cafés and restaurants; the F&B; or marketing manager for hotels.
- **Bring:** your phone with the pitch deck, the 1-minute video, and the partner guide PDF.
- **Ask them to prepare:** menu, offer, photos or video, buffet reel and how the buffet changes daily, and a short description.
- **Be honest:** until launch, say "launching soon"; never quote user numbers you don't have yet.
- **Follow up** within 2 days, and stop after 2 follow-ups with no reply.

WhatsApp: first message (restaurant / café)

Hi [Name], I'm Sarah from Spotted, a new app launching in Khalifa City. People save places like [Venue] on Instagram, then forget them. Spotted reminds them when they're nearby and brings them in with your own offer.

Your first 2 months are free. Could I show you in 10 minutes this week, around 3-5pm? I can come to you.

Email: first message

Subject: More guests for [Venue], 2 months free

Hi [Name],

I'm Sarah, founder of Spotted, an app launching in Khalifa City that turns Instagram saves into real visits.

When someone saved [Venue] and walks nearby, Spotted reminds them and shows your offer. Every visit is scanned, so you see exactly what it brings, and guests eat in, so there's no commission on their bill.

Plans start at AED 99 a month, and the first 2 months are free. We're picking 20 founding partners in Khalifa City who get a locked price and launch-week features.

Could I visit for 10 minutes this week? Any day 3-5pm works.

Thank you,
Sarah

Subject: Filling your buffet with guests who already saved you

Dear [Name],

I'm Sarah from Spotted, a new app in Abu Dhabi that reminds people about places they saved on Instagram when they're nearby.

For hotels, we focus on buffets: we feature your buffet reel and daily menu, and agree a custom offer with you (for example 25% off or buy one get one free). Every visit is scanned so you can measure results.

Would you have 15 minutes next week for a short call or visit?

Kind regards,
Sarah

Hi [Name]! Your [place] reels are great. I'm launching Spotted in Khalifa City: when followers save a place from your reel, the app credits you. With Creator Pro, all your reels appear in the app automatically, followers save one place or all, and you collect stars that prove your value to brands. Pro is free for 2 months for founding creators. Can I send you a 1-minute video?
