Spotted Partner Guide

For restaurants, cafés, hotels and creators · October 2026

Spotted in 4 tiny steps: (1) Someone sees a yummy place in a reel. (2) They save it on Spotted. (3) When they walk nearby, Spotted reminds them. (4) They visit and the venue scans. The creator who recommended it is credited.

2. Payment rules (restaurants and Creator Pro)

- 2 months free, with everything in your plan.
- Then prepaid, monthly or yearly.
- Pay yearly: pay 11 months, get 12.
- Payment problem? Everything stays fully active for 60 days.
- After 60 days: your profile is hidden from customers. Your content stays safe, but you can't see it or receive stars, and customers can't see your profile. They can still see the places they saved through you, nothing else.

Compared with delivery apps: delivery apps take about 20-35% of every order. 300 orders of AED 100 means AED 7,500-9,000 a month to the app. With Spotted, guests eat in and you keep the full bill, for a flat monthly plan from AED 99.

5. For creators

- **Free:** credit only. When someone saves a place from your reel, the app shows "Saved from @you's reel". No page, stars or stats.
- **Creator Pro (AED 249/month):** connect Instagram or TikTok and all your reels appear in the app automatically; followers save one place or "Save all"; stars, analytics, earnings tools, featured placement. 2 months free, then prepaid. Stars are counted from day one and appear when you go Pro.
- **Venue stars:** yellow = saved, not visited · purple = visited, bought nothing · green = visited and bought.
- **Creator stars (Pro only):** a yellow star when someone saves a place from your reel, a green star when they visit. More stars mean more reach. Top Creator of the Month is featured on the home screen.
- **Earnings:** a share when followers use coupons from your picks, plus brand deals. (Exact share confirmed before launch.)
- **Your content stays yours:** Spotted links to or embeds reels, never reposts them. Paid picks are labelled "Sponsored".

7. Answers to common objections

They say	You answer
"We're already busy."	Great. Use Spotted only for your quiet hours, and fill tables that are empty anyway.
"We're on delivery apps."	Spotted brings dine-in customers, with no commission on their bill.
"We already pay influencers."	People saved that reel. Spotted reminds them when they're nearby, so the money you spent keeps working.
"Discounts hurt us."	Use a free item or a quiet-hours deal. You choose.
"Why should I pay?" (creator)	Free still credits every save. Pro (AED 249) turns all your reels into a page followers save from, with stars that prove your value to brands.
