What Each Plan Includes

Every plan adds 5 more benefits, so each step up is worth it

Why won't everyone just pick AED 99? Two reasons. (1) **Your venue type sets your starting plan**: a multi-cuisine restaurant starts at Premium, but anyone can move up. (2) **Each plan adds 5 more tools**, so busy venues want the higher plans anyway.

Every plan

- 2 months free, then prepaid monthly or yearly (pay 11 months, get 12).
- Payment problem: fully active for 60 days, then hidden until paid (content kept safe).
- Free listing still available for anyone not ready to pay.
- Hotels: custom buffet deals agreed with our team.
- **3 stars for venues:** yellow = saved, not visited · purple = visited, bought nothing · green = visited and bought. Creators see only yellow and green (any visit = green).

Honest check

- **Only promise what the app can do at launch.** Features like reels search, WhatsApp updates and Ramadan mode come later, so mark them "coming soon" in pitches until they're built.
- Starter must still feel useful, or cafeterias won't renew. Reminders + 1 offer + basic stamp card + verified visits is a fair core.
