The 3 stars

- **Green star:** Visited and bought something

- Purple: the customer scans the QR sticker at your door. Green: your staff scan their coupon or loyalty card at the till. Creators only see yellow and green: any visit counts as green for them.

Honest check

- **At launch only the core works:** shop page, reminders, offers, loyalty card, scanning and the basic report. Mark the rest "coming soon" when you pitch.
- Start with restaurants. Add shops 2-3 months later, when you have real numbers to show.
